HP iPAQ 314/316 Travel Companion

Enjoy the journey as much as the destination. Whether you're on the road for business or pleasure, this advanced, high-definition 3D navigation system provides a wonderfully immersive experience to help you find your way.

Know about where you are going
Confidently follow turn-by-turn directions to the places you need to go, with both spoken and on-screen guidance. Even street names are spoken to help you along the way. Pan and zoom to the level of detail you desire. Quickly zoom in from 3,000 metres to street level view. On the touch screen display, use your finger to simply slide the map in the direction you want to view. Let your iPAQ Travel Companion guide you to family, friends, and business associates using your Microsoft® Office Outlook® Mobile contacts. Before you go, tailor your travel experience with HP's online trip planning services and download it to your iPAQ 314 for a more productive trip.

Put your travel experience in overdrive
View your route comfortably on the spectacular, high-definition touch screen display. Find your location fast with the dual-core[1] 600 MHz Titan processor with autonomy acceleration. Keep your maps and points of interest at hand with 2 GB of flash ROM storage. Transfer content quickly and easily from your PC with the high-speed mini-USB 2.0 connector.

Convenience and entertainment at every turn
While you travel, use your iPAQ 314 as a hands-free answering system for your Bluetooth®-enabled phone. Then when you arrive, enjoy your digital media library, business multimedia content or even a challenging video game on this premium high-definition entertainment system. Travel first class with the iPAQ 314 – perfectly suited for your business or personal adventures.

Think mobile. Think global. Think HP.

[1] Dual-core is a new technology designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology.
